Clear_SitemapWireframes_v2.2_063010.graffle | 4.0 How to Join
version 2.2 | Wed Jun 30 2010 | Omnigon Communications, LLC | Mohit SantRam

---

NOTES:

How to Join will walk users through the sign up process and explain the technology used.

1.0) CLEAR LOGO
Tag line to identify and brand the page.

2.0) HEADER
The Header tag line will describe important advantages of using CLEAR.

3.0) HEADLINE
Text call to action.

4.0) HOW IT IS SECURE
The How It Is Secure copy will encourage users to understand the sign up and activation process.

5.0) MEMBER TYPE
Users must select if they are a New Member or Looking For More Information.

6.0) ADD TO LIST
Users are asked to select locations from a list of airports where they would like to see CLEAR. Pressing Add To List will populate the currently selected Airport from the drop down list to the list of displayed locations. When an airport has been selected from the list, it will no longer be displayed within the drop down.

7.0) SELECTED AIRPORTS
Users can see all of the airports that they have selected.

8.0) COPYRIGHT INFORMATION
The CLEAR logo will be visible on all pages and always link to the home page.

9.0) REGISTER, LOGIN/LOGOUT & SHARE
The Register, Login/Logout and Share buttons will allow users to quickly create, update and access their accounts as well as sharing CLEAR with other users via social networking channels.

10.0) PRIMARY NAVIGATION
The Primary Navigation is visible on all pages. If a section is active, it will be treated visually.

11.0) SECONDARY NAVIGATION
The Secondary Navigation is visible on many pages, but may change from page to page. If a section is active, it too will be treated visually.

12.0) FOOTER
The Footer contains several components and static pages. Share, Get in Touch, Testimonials, Privacy Policy, California Privacy Policy, Terms of Use, FAQ, Contact Us, Social Media and Partners.

FlyClear Kiosks
User Verification Process Flow

Return to Administration Menu

Cancel

Resume Verification

System provides message, "Welcome to Clear. Please insert your Clear card to begin."

Need animation for this screen

Need progress bar animation for this screen

User inserts their card

User puts biometric (right thumb) on Scanner

System compares biometric to information with data on card, user has three chances to submit a match on primary biometric

System provides message header, "xxxxx (biometric, e.g. Finger – Right Thumb) Place your xxx on the fingerprint reader or select from the following biometrics"

User has option to put right thumb on scanner or select a different biometric, or exit

Data is a match?

No

User has three chances to submit a match on the secondary biometric.

Data is a match?

No

System provides message, "Sorry, Your Identification cannot be verified, please remove you card and go to the security line."

Yes

Yes

User selects a different biometric. Used primary biometric is 'grayed out'

User selects Exit

No

System provides message, "You will be required to use the regular security line by exiting now. Are you sure you want to exit?"

Yes

End - System goes to the Attendant Log in Screen

You are Clear. Thank You. Please remove you Card and proceed to security.

End System is ready for the next user.

NOTES:

CLEAR Verification Kiosks will be monitored by CLEAR Attendants. New and Existing CLEAR users will be guided through the verification process if they assistance.

This Process Flow describes the following pages and how the user traverses through the system.

NOTES:

CLEAR Admin Attendants are able to administer all existing CLEAR Attendants for the Airport's Kiosks and add new Attendants.

1.0) CLEAR LOGO
The CLEAR logo will always be displayed.

2.0) FINGERPRINTS / RIGHT HAND
The page header will alert the user of their contextual placement.

2.1) INSTRUCTIONS
Users must verify **both** biometric data identifiers to proceed.

2.2) SELECT BIOMETRIC DATA
The CLEAR Admin must ensure that the Biometric Data is recorded properly, verified and and selected within this page.

2.3) FINGERPRINTS/RIGHT HAND & FINGERPRINT PREVIEW
Users must place their hand and fingers on top of the glass scanner to properly record their biometric data. This essential information will help identify the user. Fingerprint Preview will display the scanned fingerprint images to the user.

2.4) CLEAR
Standard buttons and behavior.

3.0) MENU
The contextual Menu allows Admin Users to access several system level actions. These actions include Log Out, Restart, Shutdown, User Management and Diagnostic Mode.
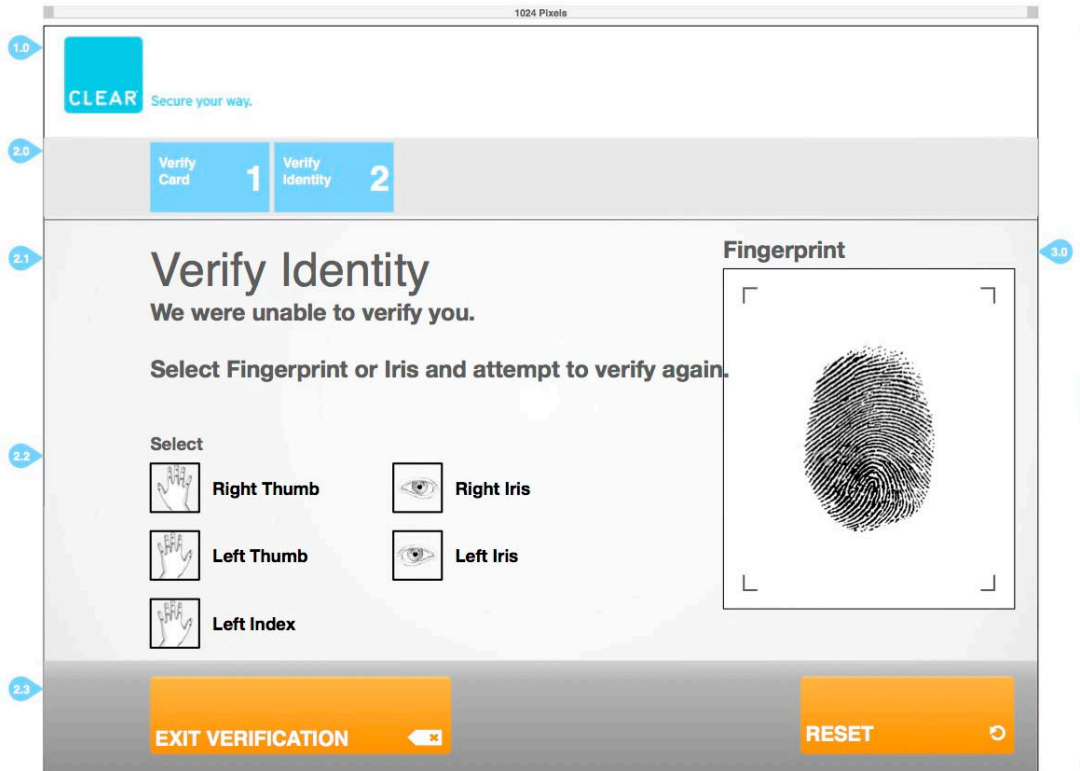

4.0) ATTENDANT STEPS
The step by step buttons will help guide the user through the sign up process..

5.0) HELP, GO BACK AND EXIT MANAGEMENT
Standard contextual buttons.

NOTES:

CLEAR Verification Kiosks will be monitored by CLEAR Attendants. New and Existing CLEAR users will be guided through the verification process if they assistance.

1.0) CLEAR LOGO
The CLEAR logo will always be displayed.

2.0) TWO STEPS OF VERIFICATION
The two steps of verification are displayed to the user. The current step will be the last blue button from left to right.

2.1) VERIFY IDENTITY
Users will verify their identity with their CLEAR card and verifying a specific biometric at the kiosk. **Since the user was unable to properly verify their Primary Biometric, they must choose their Secondary Biometric value to verify. They will only have three more chances to verify their identity**

2.2) SELECT BIOMETRIC
The user may select an alternate Biometric value to verify their identity.

2.3) EXIT VERIFICATION & CLEAR
Users can exit the CLEAR verification system at anytime by pressing Exit Verification. Clear will reset the scanned image.

3.0) FINGERPRINT PREVIEW
Users will see a preview of their fingerprint after a successful scan.

NOTES:

CLEAR Enrollment Kiosks will be monitored by CLEAR Attendants. New and Existing CLEAR users will be guided through the enrollment process.

1.0) CLEAR LOGO
The CLEAR logo will always be displayed.

2.0) SEVEN STEPS OF ENROLLMENT
The seven steps of enrollment are displayed to the user. The current step will be the last blue button from left to right.

2.1) VERIFY DOCUMENTS
Users will scan, Verify and Authenticate their travel and identification documents at the kiosk with the Attendant.

2.2) PRIMARY DOCUMENT
The Primary Document will traditionally be the user's Passport.

2.3) SECONDARY DOCUMENT
The Secondary Document can be several items, though traditionally the user's Driver's License or State/Province/Country Identification card.

2.4) CREDIT CARD
A valid Credit Card must be used to process payment.

2.5) EXIT ENROLLMENT, GO BACK & CONTINUE
Exit Enrollment will end the current enrollment process and return the user to the main screen. Go Back will navigate to the previous page and the Continue button will navigate to the next page within the enrollment process.

3.0) MENU
The contextual Menu allows users to access several system level actions. These actions include Log Out, Restart. Shutdown, User Management and Diagnostic Mode. The user will only see actions for which they have access privileges.
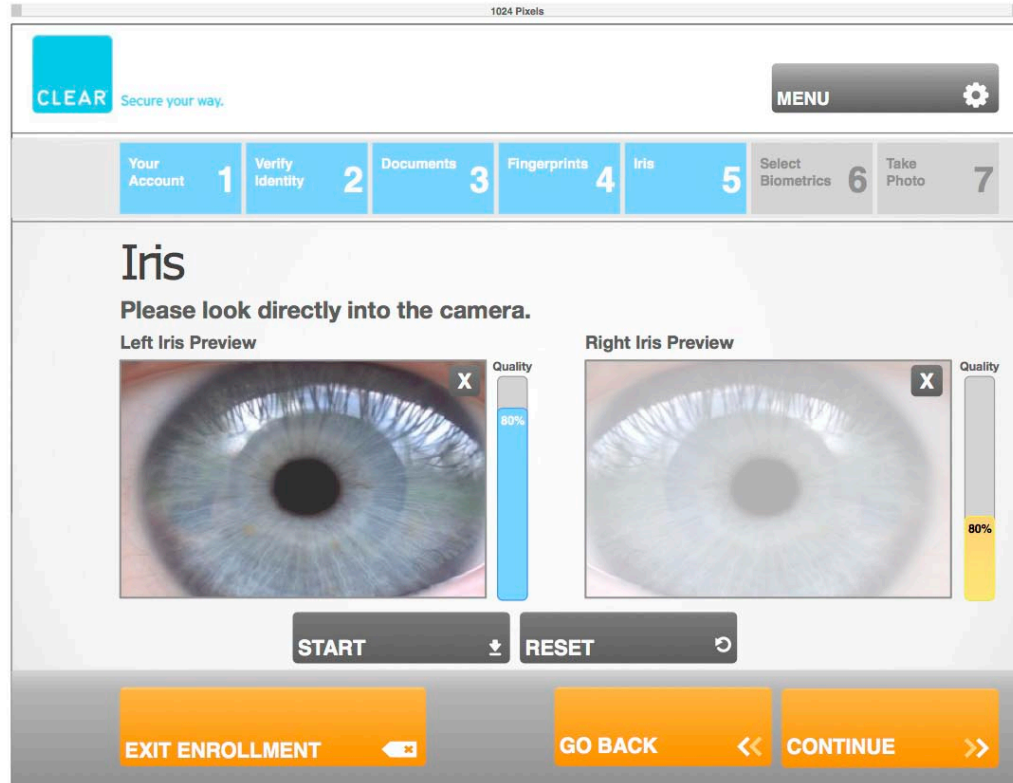

4.0) DOCUMENT PREVIEW
Users will see a preview of their document after a successful scan.

4.1) START & RESET
The Attendant will be required to scan in the User's documents. Using the Start and Reset buttons, they will initiate the iAuthenticate device. A preview of their scan will be visible within the Document Preview area.
